(b) A passport is a document of identity and nationality issued by the appropriate authorities of the government to which the alien bearer owes allegiance, identifying the bearer and stating his nationality. It is ordinarily issued for travel purposes.

(c) A diplomatic passport, or the equivalent thereof, is a passport issued to an alien having diplomatic or career consular status, or a passport issued to aliens of special distinction, including high officials and ex-officials. The passport should be marked "Diplomatic Passport" by the issuing authority if the regulations of the government concerned so require.

(b) Consular officers (except consular agents) at consular offices, when authorized by a mission or by the Department, may grant diplomatic visas. A mission authorizing the granting at a consular office of a diplomatic visa in an individual case or authorizing the granting of diplomatic visas generally at a consular office will report such authorization to the Department.

(c) The Chief and the Assistant Chiefs of the Visa Division of the Department are authorized to grant, in their discretion, appropriate diplomatic visas to aliens who are diplomatic or career consular officers of foreign governments and to the members of their immediate families, who are in the United States, and who desire to reenter the United States after a temporary absence. All such visas shall be considered as having been issued to a nonimmigrant under section 3 (1) of the Immigration Act of 1924, as amended, unless otherwise specified in the visa.

§ 60.3 *Types of diplomatic visas; period of validity.* The following types of diplomatic visas may be granted:

(a) A regular diplomatic visa, which, provided the passport to which it is affixed remains valid and provided the status of the holder does not change, will be valid for a period of 12 months during which time the holder may make any number of applications for entry into the United States and territory under the jurisdiction of the United States.

(b) A limited diplomatic visa, which will be valid for a single journey to the United States. Such a visa may be revalidated one or more times for an additional journey to the United States within 12 months of the date of the granting of the visa, provided the bearer is still eligible for such a visa.

§ 60.4 *Classes of aliens eligible to receive diplomatic visas.*—(a) *Regular diplomatic visas.* Regular diplomatic visas may be granted to the following classes

of aliens coming to the United States as nonimmigrants:

(1) Heads of states and their alternates.

(2) Members of a recognized royal family.

(3) Governors general, governors, high commissioners, and other like high administrative or executive officers of a territorial unit and their alternates.

(4) Cabinet ministers and their assistants holding executive or administrative positions not inferior to that of the head of a departmental division or his alternate.

(11) All members of official temporary missions of a diplomatic character.

(12) Officers and representative members of international bodies of an official nature who have diplomatic passports or the equivalent thereof.

(13) Wives and other members of the immediate families of aliens within the above-mentioned categories.

(14) Servants and other employees of aliens within the above-mentioned categories accompanying or following to join their employers.

(15) Such other aliens as the Department may, by special instruction, indicate in individual cases.

(b) *Limited diplomatic visas.* The following classes of aliens, who are not entitled to regular diplomatic visas, may be granted limited diplomatic visas:

(1) Subordinate members, including employees, of international bodies of an official nature when traveling on the business of the international body, and presenting a diplomatic passport or the equivalent thereof.

(2) Members of delegations proceeding to or from an international conference of an official nature.

(3) Wives and other members of the immediate families of aliens within the above-mentioned categories.

(4) Servants and other employees of aliens within the above-mentioned categories accompanying or following to join their employers.

§ 60.5 *Classes of aliens ineligible to receive diplomatic visas.* Diplomatic visas shall not be granted to:

(a) American citizens, or to the alien relatives or servants of American Foreign Service officers or of other United States Government officials, unless the applicant for the visa is entitled to a diplomatic visa in his or her own right.

(b) Aliens who are persona non grata. Doubtful cases should be reported to the Department for special instructions.

§ 60.6 *Chief of mission to report to Department in special circumstances.* If a case arises in which an applicant, who does not come within the categories specified in § 60.4, requires a diplomatic visa, and it would be undesirable for special reasons to refuse the granting of a diplomatic visa, particular instructions should be requested from the Department.

§ 60.7 *Applications for diplomatic visas.* (a) Application for a diplomatic visa may be made at any mission, regardless of the nationality or place of residence of the applicant.

(b) As a general rule, an alien seeking a diplomatic visa should apply in person at the office from which he desires to obtain the visa. However, the chief of the office may, in his discretion, waive the personal appearance of the applicant. Application for a diplomatic visa shall be made on Foreign Service Form 257, but when the personal appearance of the applicant is waived the diplomatic or consular officer should complete the application as far as possible from the information available. No oath will be required. The requirement of a photograph of the applicant may be waived in the discretion of the responsible officer.

§ 60.8 *Passports required.* An alien applying for a diplomatic visa must present a diplomatic passport or the equivalent thereof, issued by a government recognized by the United States. When application is made for a regular diplomatic visa, the attention of those applicants whose passports will expire within a year should be called to the fact that the diplomatic visa becomes invalid when the passport expires, in order that they may, if they desire, have the passport extended or obtain a new passport which will remain valid during the whole period of possible validity of the visa.

§ 60.9 *Evidence.* The officer granting a diplomatic visa must be satisfied that the applicant is entitled thereto. In doubtful cases he may require that definite evidence of an alien's eligibility for a diplomatic visa be presented. The cooperation of other missions or consular offices may be requested in obtaining information regarding such applicant.

If practicable, appropriate notation should be made on the visa showing that it has been cancelled or revoked. A report of such cancellation or revocation, stating the reasons therefor, shall be submitted to the Department. The use of the telegraph is authorized, if necessary. When there is reason to believe that the alien may proceed to the United States notwithstanding the cancellation or revocation, the transportation company should be appropriately informed.

When information of the foregoing nature is obtained after the bearer of the visa has embarked for the United States, or in cases where it is not possible personally to notify the holder of the visa of an intention to cancel or revoke the visa, a report of the facts which would appear to justify cancellation or revocation of the visa shall be submitted immediately to the Department in order that the immigration authorities at the intended port of entry of the alien into the United States may be notified.

PART 1042—IMPORTS OF STRATEGIC MATERIALS¹

[General Imports Order M-63, as Amended Oct. 5, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain imported materials for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1042.1 *General Imports Order M-63*—(a) *Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(6) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M-63.

¹ Certain food items formerly on Lists I, II, and III are now subject to import control in accordance with War Food Administration Order 63.

(b) *Restrictions on imports of materials*—(1) *General restriction.* No person, except as authorized in writing by the War Production Board, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon Lists A and B attached hereto.

(2) *Authorization by War Production Board.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form WPB-1041 addressed to the War Production Board Ref: M-63, Washington 25, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation after the governing date of any material subject to this order, unless such bank or person either has received a copy of the authorization issued by the War Production Board under the provisions of paragraph (b) (2) or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in paragraph (b) (4).

(4) *Exceptions.* Unless otherwise directed by the War Production Board, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Foreign Economic Administration, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) [Deleted Mar. 30, 1944]

(v) To any material consigned as a gift or imported for personal use where

the value of each consignment or shipment is less than \$100.00; or to any material consigned or imported as a sample where the value of each consignment or shipment is less than \$25.00; or to any used material in the category of household goods imported by the owner for his own personal use; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States; or

(vii) [Deleted Nov. 13, 1944.]

(viii) To manufactured materials which are imported in bond solely for the purpose of having them repaired and then returned to the owner outside the continental United States; or

(ix) To materials which were grown, produced, or manufactured in the continental United States, and which were shipped outside the continental United States on consignment or pursuant to a contract of purchase, and which are now returned as rejected by the prospective purchaser; or

(x) To materials shipped into the United States in transit from one point in Mexico to another point in Mexico, or from one point in Canada to another point in Canada.

(xi) To materials on List B which are located in, and are the growth, production, or manufacture of, and are transported into the Continental United States overland, by air, or by inland waterway from Canada, Mexico, Guatemala or El Salvador.

(c) [Deleted June 4, 1945.]

(d) [Deleted June 4, 1945.]

(e) *Restrictions on distribution of List A and List B materials.* Unless otherwise provided by the terms of the authorization issued pursuant to paragraph (b) (2), any material on List A or List B which is imported in accordance with the provisions of this order after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable provisions of the regulations of the War Production Board and to all orders and directions of the War Production Board which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry.* No material which is imported after the governing date, including materials imported by or for the account of the Foreign Economic Administration, U. S. Commercial Company, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form WPB-1040 in duplicate except in the case of a material described in paragraph (b) (4) (xi) when the person

making the entry need not file with the entry Form WPB-1040. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M-63, Washington 25, D. C.

(2) *Other reports.* All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(3) *Exceptions.* The provisions of this paragraph (f) shall not apply to materials imported and consigned as gifts for personal use by or to members of the Armed Services of the United States.

(g) *Routing of communications.* All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington 25, D. C. Ref.: M-63.

(h) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority assistance. In addition, the War Production Board may direct the disposition and use of any material which is imported without authorization as required by paragraph (b).

(i) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(j) *Effect on liability of removal of material from order.* The removal of any material from the order shall not be construed to affect in any way any liability for violation of the order which accrued or was incurred prior to the date of removal.

Issued this 5th day of October 1945.

INTERPRETATION 1: Revoked June 4, 1945.

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M-63 (§ 1042.1) as amended.

By amendment dated December 17, 1942, the definition of material "in transit" was

changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship the material must have been afloat, or on an ocean bill of lading must have been issued with respect to it on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

INTERPRETATION 3: Revoked June 4, 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-317, Direction 7, as Amended Oct. 8, 1945]

PRIORITIES ASSISTANCE FOR COTTON PIECE GOODS FOR DIRECT BUYING WHOLESALERS AND RETAILERS WHO ARE IN A POSITION TO SERVE SMALL TOWNS AND RURAL AREAS

The following amended direction is issued pursuant to General Conservation Order M-317:

(a) Wholesalers and retailers who buy directly from textile mills or converters and who are in a position to serve small towns and rural areas may apply on Form WPB-4157 for priorities assistance to buy the kinds of cotton piece goods described in this direction.

(b) The following kinds of cotton piece goods are now available in limited quantities: lawn, class C sheeting, 68 x 64 print cloth (percale), 64 x 56 print cloth (percale), 60 x 48 plissé (crinkled crepe), outing flannel, gingham and seersucker.

(c) Applications for assistance to get some of the goods that are now available must be filed with the nearest War Production Board field office not later than August 11, 1945.

(d) The purpose of this program is to make more cotton piece goods available to persons who live in small towns and rural areas and who buy these goods over-the-counter from retailers for use in making garments in the home. Therefore, the only applications that will be considered will be those from wholesalers who customarily buy these goods directly from textile mills or converters and resell to retailers in small towns and rural areas, and from the retailers themselves in the small towns and rural areas who also customarily buy directly from textile mills or converters. Because of the very limited supply of the goods, applications from these eligible wholesalers and retailers may be granted only where it appears that the applicant's 1944 receipts of cotton piece goods have been less than 40% of 1942 receipts and the consumer needs of the community or area served by the applicant have not decreased, or where the consumer needs of the community or area have greatly increased. Applications that meet this test will generally be granted on a pro rata basis, based on the applicant's receipts of the goods in 1942 and his receipts into stock in 1944 and 1945, including unfilled rated orders. A person who has not been in a business handling cotton piece goods long enough to give this information, or who is just entering business, may, if he buys or plans to buy directly from a textile mill or converter, apply for priorities assistance and his application will be processed on an equitable basis.

(f) Each wholesaler and retailer who was assigned an AA-3 rating on Form WPB-4157 after July 21, 1945 is hereby assigned a CC rating to get that portion of the yardage of fabrics which was authorized but has not been delivered to him. If he placed orders after July 21, 1945 with this AA-3 rating and those orders have not been completely delivered and were not cancelled, the balance of the orders is hereby automatically rated CC and the purchaser need not (although he may) give the certificate set forth in paragraph (e) above. To the extent that orders

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-375 as Amended Oct. 5, 1945]

(3) The War Production Board may on written application authorize the production and sale of work gloves, other than those enumerated in Schedule A, for specific occupational requirements.

However, such gloves may be sold and delivered only before July 31, 1944.

(2) No manufacturer of work gloves may deliver work gloves packed less than one dozen pairs to a package.

(3) [Deleted Oct. 5, 1945.]

(4) Unless specifically authorized by the War Production Board, no person who purchases work gloves for distribution or sale to his own employees shall accept delivery of work gloves if by virtue of such acceptance his inventory of work gloves will be in excess of the minimum amount of work gloves required to supply the needs of his employees for a period of 30 days.

(c) *Dealer's return of Parts B to customer.* When a supplier (dealer or sectional warehouse only) is unable or unwilling to complete the transfer of tires called for on a certificate or replenishment portion of a certificate or receipt received from a dealer or sectional warehouse or when a consumer, dealer or sectional warehouse cancels an order for tires from a supplier, the supplier shall return replenishment portions equivalent to the number of tires which have not been transferred in exchange for the replenishment portions forwarded. ² 10 F.R. 2097, 2250, 3925, 6231.

³ 9 F.R. 526, 4350.

ARTICLE II—RENTALS

SEC. 4. *Rentals with maintenance service.* (a) The maximum monthly charges for rentals with maintenance service of most used adding machines, calculating machines, cash registers, duplicating machines, dictating machines and addressing machines are listed in Appendices A, B, C and D of this regulation.

(b) The maximum monthly charge for a rental with maintenance service of any used business machine which is not listed in Appendices A, B, C and D of this regulation is five percent of the "price new" of the machine. The term "price new" is defined in Section 8.

(c) "Rental with maintenance service" means a rental which includes the supply, without additional charge, of service and maintenance when needed to keep the machine in good operating condition during the rental period.

SEC. 5. *Rentals without maintenance service.* (a) The maximum monthly charge for a rental without maintenance service of any used business machine is three-fourths of the maximum monthly charge for a rental of the same machine with maintenance service.

(b) "Rental without maintenance service" means a rental which does not include the supply, without additional charge, of the service and maintenance referred to in Section 4 (c).

SEC. 6. *Charges for installation of special features.* If, in connection with the rental of a used business machine, special features are installed for and at the request of the user, a single charge may be made for making such installation which shall not exceed the renter's properly established maximum charge for the same service, determined under Revised Maximum Price Regulation No. 165. Such charge may be made and collected only if it is billed as a separate item. If the renter has not properly determined a maximum charge for this service under Revised Maximum Price Regulation No. 165 he may make no charge for this service.

SEC. 7. *Transportation and packing charges.* The maximum rental charges established by this regulation include all packing charges. They also include all charges for delivery and pick-up within the renter's metropolitan delivery area with respect to any machine weighing less than two hundred pounds. A single charge of \$3.00 may be made for delivery and pick-up within the renter's metropolitan delivery area on the initial rental of a machine weighing two hundred pounds or more.

In connection with the rental of a used business machine where delivery is made outside of the renter's metropolitan area at the request of the user, the renter may charge for delivery and pick-up an amount not greater than he customarily charged during March 1942 on rentals to the same class of user in the same geographical location; or if the renter was not in business at that time, an amount not greater than that customarily charged under the same circumstances by his closest competitor who was in business at that time.

A charge for delivery and pick-up as permitted by this section may be made

and collected only if it is billed as a separate item.

SEC. 8. "Price new." When used in this regulation, the term "price new" means either:

(a) The manufacturer's October 1941 list price of the machine when sold new to commercial users; or

(b) If the machine was not sold by the manufacturer to commercial users, five-thirds of the manufacturer's October 1941 list price of the machine when sold new to his largest class of dealers; or

(c) If the model was discontinued by the manufacturer prior to October 1941, and the price new of the machine cannot be determined under (a) or (b), the price new of the machine shall be the price new of the most closely comparable machine. In determining what is the most closely comparable machine, the make, model, capacity, obsolescence, age, features and functions, as well as all other details, must be considered.

SEC. 9. *Rental period.* The rental period is the period specified in the contract or other writing required by section 25. A full month's rental for a machine may be charged for an initial rental of less than thirty days. Fractions of a month over the first month shall be prorated.

ARTICLE III—SALES

SEC. 10. *Listed maximum prices for sales to users.* The maximum prices for sales to users of most used adding machines, calculating machines, cash registers, duplicating machines, dictating machines and addressing machines and certain extra features and attachments for these machines are listed in Appendices A, B, C and D of this regulation. No charge for installing a feature or attachment so listed may be made other than the price for the feature or attachment itself.

SEC. 11. *Unlisted maximum prices for sales to users.* The maximum prices for sales to users of used business machines or attachments, not listed in Appendices A, B, C and D of this regulation shall be computed from the following table:

If the particular machine was first sold new by the manufacturer	Its maximum price shall be the following percentage of its "price new", (as defined in section 8)	
	Rough	Reconditioned
	Percent	Percent
On and after 1-1-35.....	60	75
From 1-1-25 to 12-31-34.....	45	60
Before 1-1-25.....	25	40

No charge for installing an attachment may be made other than the price for the attachment itself.

SEC. 12. *Maximum prices for sales to dealers—(a) Sales by users to dealers.* The maximum price for a sale by a user (including the United States) to a dealer of a used business machine is two-thirds of the maximum price established for the sale of that machine to a user. If the dealer buying the machine gives a written certification to the user stating that his proposed purchase price does not exceed the maximum price for that sale by the user to the dealer, the user

may rely on that certification and may collect the amount so certified.

(b) *Sales by dealers to dealers.* The maximum price for a sale by a dealer to a dealer of a used business machine is the maximum price established for the sale of that machine to a user.

SEC. 13. *Credit charges.* A charge for the extension of credit may be added to the maximum price established by this regulation for sales of a used business machine only to the extent permitted by this section. Sellers who, during March 1942, sold used business machines on credit may make a credit charge not greater than their customary credit charge during March 1942 on a similar sale and on similar terms to the same class of purchaser. If the seller did not sell used business machines on credit during that period, he may hereafter make a charge for credit not greater than that made during March 1942 by the seller's closest competitor who sold used business machines on credit during March 1942, on a similar sale and on similar terms to the same class of purchaser. All charges for the extension of credit must be billed separately. No seller may require as a condition of sale that the purchaser must buy on credit.

SEC. 14. *Packing charges.* A charge for packing for shipment may be added to the maximum price established by this regulation for sales of a used business machine only to the following extent:

(a) On sales to an exporter or foreign buyer, as provided by Second Revised Maximum Export Price Regulation;⁴

(b) On sales to any procurement agency of the United States, as provided by Second Revised Supplementary Order No. 34;⁵ and

(c) On other sales, an amount not greater than that customarily charged by the seller on sales to the same class of purchaser in the same geographical location during March 1942; or if the seller was not in business during that month an amount no greater than that customarily charged under the same circumstances by his closest competitor who was in business at that time.

All charges for packing must be billed separately. No seller may require as a condition of sale that he pack the machine for shipment.

SEC. 15. *Transportation charges.* In connection with the sale of a used business machine, the seller may charge for transportation an amount no greater than he customarily charged on sales to the same class of purchaser in the same geographical location during March 1942; or if the seller was not in business during that month, an amount no greater than that customarily charged under the same circumstances by his closest competitor who was in business at that time.

SEC. 16. *Trade-in allowances.* A seller of used business machines may not reduce his trade-in allowances below those he had in effect during March 1942. A seller not engaged in the sale of used

business machines in March 1942 may not make trade-in allowances below those in effect in March 1942 on sales by his closest competitor who was in business at that time.

SEC. 17. *Export sales.* Maximum prices for sales to an exporter and for export sales as defined by the Second Revised Maximum Export Price Regulation are covered by the provisions of that regulation.

SEC. 25. Invoices and records. A dealer who makes a sale or rental covered by this regulation of a used business machine shall furnish to the customer the following statement:

(a) On rentals. The renter of a used business machine shall supply to the user a contract, invoice or other writing which specifies the make, model number (if available) and serial number of the machine rented, and any features for which a rental charge is made; the contract period; the rental charge; the type of rental (that is rentals "with" or "without maintenance service"); the date the rental is made; and the name and address of the person to whom the machine is rented.

SOLID FUELS IN ALLEGHENY COUNTY, PA.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) On and after September 10, 1945, the maximum charges for the housing services, set forth in the following schedule, rendered by solid fuel dealers in connection with the sale by them of solid fuels within Allegheny County, Pennsylvania, shall be the applicable maximum service charges specified therein:

Maximum Authorized Service Charges

Special service rendered at the request of the purchaser (see definitions in paragraph (c) (1)):	Maximum authorized service charges (per net ton)
Shoveling.....	\$0.75
Wheeling.....	.75
Carrying (15 steps or less).....	1.00
Carrying (16 steps or more).....	1.25
Carrying and wheeling.....	1.75
Single chute (12 feet or less).....	.75
Double or Multiple chute (over 12 feet).....	1.00
Tail-and-gate chute.....	.50
High lift truck, Coal-toter or Coal-veyor (mechanical equipment).....	.75
Not more than one of the foregoing charges may be imposed in the course of a single delivery.	
Trimming.....	.25

(b) These charges may be imposed only when the service is requested by the purchaser.

(c) *Definitions.* When used in this Revised Order No. G-55 the term:

(1) "Shoveling" refers to housing of solid fuel by dumping it near the consumer's coal window, at the curb or on the sidewalk or driveway, and manually shoveling it through the window into the bin or storage space.

(2) "Wheeling" refers to housing of solid fuel by dumping it at the curb or on the sidewalk or driveway, shoveling it into wheelbarrow, and then wheeling it into the bin, or storage space, or wheeling it to the coal window and dumping or shoveling through the window into the bin or storage space.

(3) "Carrying" refers to housing of solid fuel by dumping it at the curb, or on the sidewalk or driveway, as near as possible to the consumer's coal window

but at a distance and on a level which will not permit "chuting", "shoveling", or "wheeling", then shoveling it into baskets and carrying (including carrying up steps) to and dumping into the bin or storage space, usually through consumer's coal window.

(4) "Carrying" and "wheeling" refers to housing of solid fuel where both types of services are required to be performed in the course of a single delivery.

(5) "Single chute" refers to housing of solid fuel by placing a single chute of 12 feet or less on the side of the truck, extending it into the coal window, then usually shoveling the fuel from the bed of the truck into the chute through which it is moved or moves, largely by gravity, into the bin or storage space. (This service is not to be confused with "dumping by way of chute".)

(6) "Double or multiple chute" refers to housing of solid fuel in the same manner as by "single chute", but where the distance between the truck and the coal bin opening exceeds twelve feet and two or more chutes must be attached together. The solid fuel is shovelled from the bed of the truck into the chutes and forced through the chutes into the bin or storage space.

(7) "Tail-and-gate chute" refers to housing of solid fuel where it is necessary to attach a chute to the end gate of the truck at an angle which will not permit the flow of fuel by gravity but requires manual labor to keep the fuel flowing through the chute into the bin or storage space. (No charge may be made if the angle of the chute is such that the fuel flows by gravity and no manual labor is required to keep the fuel flowing.)

(8) "High lift truck, coaltoter or coalveyor" refers to housing of solid fuel by the use of mechanical equipment of the types designated, the handling of which requires the services of more than one man to discharge the fuel in the bin or storage space. A high lift truck is one, the body of which can be raised at both ends by means of mechanical equipment. Coaltoters or coalveyors are chutes with a mechanically driven belt by means of which the solid fuel passes through the chute without manual assistance.

(9) "Trimming" refers in general to the movement of coal by shovel, in bin or storage space, usually for the purpose of making room for more coal to be delivered.

(10) Unless the context otherwise requires, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to all other terms used herein.

(d) To the extent that they are not inconsistent with the terms of this order, the provisions of Revised Maximum Regulation No. 122 remain applicable to all dealers subject to this order.

(e) This order may be revoked or amended by the Regional Administrator or by the Price Administrator through the issuance at any time hereafter of any order or price regulation, or amendment or supplement thereto, the provisions of which may be contrary hereto.

This Revised Order No. G-55 shall become effective September 10, 1945.

No additional charges may be made for rental or use of equipment or for fees except as otherwise specified in this order.

(d) *Special pricing practices to be used in computing maximum prices—*(1) *Measurement of hours.* The number of hours to be charged against any job shall be counted from the time the workman leaves the shop or the previous job (whichever is later) until he completes the job if he proceeds to another job or until he returns to the shop if he proceeds there directly. The hours for which charges are made shall not exceed those shown in the seller's payroll records nor those shown in records which paragraph (g) of this order requires the seller to keep.

(2) Hourly service rates for a plumber's team, consisting, for example, of one or more journeyman plumbers and/or one or more helpers, apprentices, or laborers shall not exceed the sum of the maximum service charges as computed for the individual workmen comprising the team.

(i) \$2.50 per hour, or

(ii) The hourly service charge which a seller is authorized to charge for journeyman services under paragraph (c) (1).

(5) *Sales at a guaranteed price.* A seller may offer to supply plumbing services covered by this order on the basis of a guaranteed price, the seller agreeing to charge a fixed amount: *Provided, however, That such guaranteed price may not exceed the maximum price established by this order.*

(e) *Definitions.* (1) "Plumbing," as used in this order, includes all services performed by plumbers or plumbing establishments in the installation, maintenance, and repair of materials and fixtures used in providing means for control of the supply and distribution of water and gas, for reception and removal of waste or surplus water and sewage, and for the heating of buildings by the use of furnaces.
